T

he new golf course of Royal Óbidos & Golf Resort, about 30 minutes from Lisbon, opened in the beginning of 2012. With 18 holes in a total area of 155 acres, the golf course was designed by Severiano

Ballesteros, legendary golfer and world reference in golf course design.

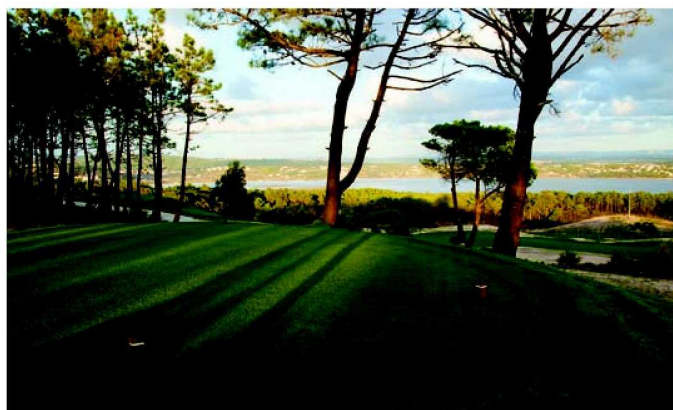

The golf course at Royal Óbidos Spa & Golf Resort is especially meant for Portugal and Northern European countries, more precisely Scandinavia, Germany, Austria and Switzerland, the UK and Ireland and the Benelux. Spain and France are also preferred markets.

The facility has annual packages for individual golfers and companies. For individual golfers, the packages include the whole family (1st member, spouse and child under 18) and are divided into four categories: Royal Óbidos Owners that live abroad, Royal Óbidos Owners that live in Portugal, Foreign residents and Portugal's residents. The annual fees for companies include options from three to five members.

The opening of the infrastructure coincided with the opening of "The Legend" restaurant, located in the club house of Royal Óbidos Spa & Golf Resort, with capacity to welcome 100 people, 40 indoors and 60 outdoors, with a unique view over the countryside and the sea. Boasting a sophisticated environment, the cuisine will be diverse including broad tasting menus or simple snacks.

According to Eduardo Johnston da Silva, head manager of the golf course, "The project Royal Óbidos is based on the concept of global quality, that is, to provide a golf experience that is entirely focused on the client, from the check in up to the 19th hole. The main features of the masterpiece of Severiano Ballesteros are the view, the 6 holes with a view over Óbidos Lagoon, and the 12 holes with a view over the Atlantic Ocean; the playability, which provides a challenge for golfers of all levels; the grass for cold climates that is used and which guarantees a homogeneous course 365 days a year; the wide training areas for long and short game next to the club house.

Our club house offers a leisure area in a unique location with a panoramic view over the golf course and the Atlantic Ocean as a background: a place where golfers can enjoy the several gastronomic options available or just relax after a game." ■
